Art Unit: 1774

DETAILED ACTION

- 1. Applicant's amendment and accompany remarks filed June 1, 2004 have been acknowledged.
- Examiner acknowledges applicant's submission of the terminal disclaimer filed June 1,
 2004.
- 3. The Double Patenting rejection of claims 6 and 8 under U.S. Patent 6,605,317 is withdrawn due to applicant's submission of the terminal disclaimer.

Claim Objections

- 4. Claim 7 is objected to because of the following informalities: Claim 7 cannot depend upon itself. Currently, as written, claim 7 depends on claim 7. Appropriate correction is required.
- 5. Claim 17 is objected to because of the following informalities: Claim 17 does not list the claim in which it depends. Appropriate correction is required.

Claim Rejections - 35 USC § 112

- 6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.
- 7. Claims 8-9, 11-14, 16-21 and 23-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 is rejected because it is unclear as to whether or not the device has (ii) an electroluminescent layer and an electroluminescent compound which comprises an organic

Application/Control Number: 09/830,897

Art Unit: 1774

complex of a metal or the device has (ii) an electroluminescent layer comprising an electroluminescent compound which comprises an organic complex of a metal.

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 9. Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by JP 63-174992. The Japanese reference discloses a chelate compound of Eu (II) and a β-diketone that can be useful as a luminous substance. Additionally, the reference discloses Eu(II) (2,2,6,6-tetramethyl-3,5-heptanedionato) as per instant claim 6. The Japanese reference meets all the limitations of instant claim 6.
- 10. Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art does not provide for a composition comprising an inert polymer and from 5% to 95% by weight of Eu(II) (TMHD)₂.

Any inquiry concerning this communication or earlier communication from the examiner should be directed to Camie S. Thompson whose telephone number is (571) 272-1530. The examiner can normally be reached on Monday through Friday from 7:30 am to 4:00 pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia

Art Unit: 1774

H. Kelly, can be reached at (571) 272-1526. The fax phone number for the Group is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
